PRECIOUS & SEMI - PRECIOUS STONE DECORATIVES

Every piece of this collection is a unique product that is individually handmade, designed and crafted by artisans all around the world.

Aurastone introduces our new product L'Estella from India to the Global Market as a manufacturer and supplier of precious and Semi Precious Stone such as Slabs, Tiles, Wall Panels and other Articles. We source different portions and bits of precious and semi precious stone from all over the world. Like-lapis lazuli, malachite, sodalite, agate, quartz, frozen wood, tiger eye, jasper, amethyst, fluorite, etc. These stones are outstanding crude artifacts, which are very expensive and are known as gifts of nature. Over the years, these stones have been produced in the puzzling research centers of nature and these precious and semi

precious stones are one of the basic systems which are converted to absolute excellence. Each stone is carefully picked by our skilled craftsmen and formed to perfection for slabs, tiles, decorative stone pieces and much more. We work in various precious and semi-precious jewelry stones build one-of-a-kind, selective parts, all of which can be used for high-end customers as artifacts, articles, interior wall panels, flooring, counter tops, walls, floors, furniture, inlays and gives a decorative finishes, providing the new and best trends in interior design. Every article is customized and hand crafted by veteran craftsmen with finest finishes...

CARE & MAINTENANCE

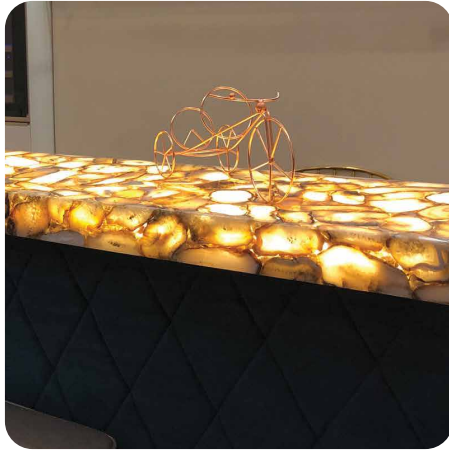

The ever-lasting finish requires only simple and routine care to maintain its goods looks. To clean Blupier Gemstones, we recommend using warm water, mild detergent and a white cloth.

STUBBORN STAINS

Any mild clearer or detergent can be used on stubborn stains. to remove adhered materials, first scrape away the excess , Then wipe away with denatured alcohol to remove stubborn marks, however the surface should be rinsed with water immediately after their use.

HEAT & SCRATCH RESISTANT

We recommend using an insulator / hotpad / trivet especially when using cooking units like electric fry pans, works and kettles. Blupier Gemstones is highly scratch resistant. However, avoid using sharp objects directly onto the surface area.
