Aurastone Group is an Indian Sourcing, Processing and Distribution Company with Capability of supplying innovative and luxurious building materials based on the customer's requirements. At present we cater to both residential and commercial construction projects in India and the Middle East.

We are known for identifying the best products and we are supported by experienced consultants who render their expertise in sourcing materials as per our customer's needs, which not only helps us in dealing with (will help us in sourcing the materials from) the right companies. It also helps us to develop effective operating procedures in sourcing.

We have tie-ups with various manufacturers who follows, stringent manufacturing norms required for exports and we have a team of experts who does the third-party audit to ensure that we source the best products.

Associating with us will help you in reducing the burden of scouting the materials, the time involved in procurement and quality check which will enable you to source the best materials, ensure prompt to supply that helps you to complete your projects in time.

### **VISION**

Our Vision is to be benchmarked for quality sourcing and be the preferred brand amongst the Construction industry globally by 2025

### **MISSION**

Our Mission: is to source best construction and allied materials using experts who are both quality and environment conscious supported by a team of dedicated staff who will be constantly trained and provide with apt infrastructure

### **VALUES**

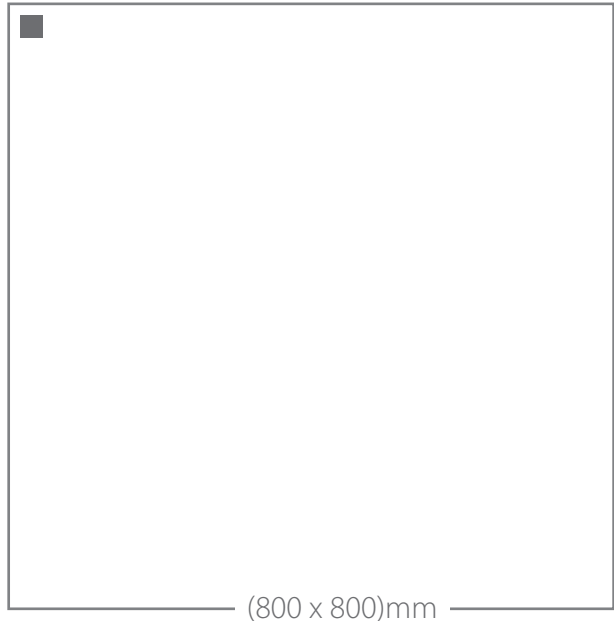

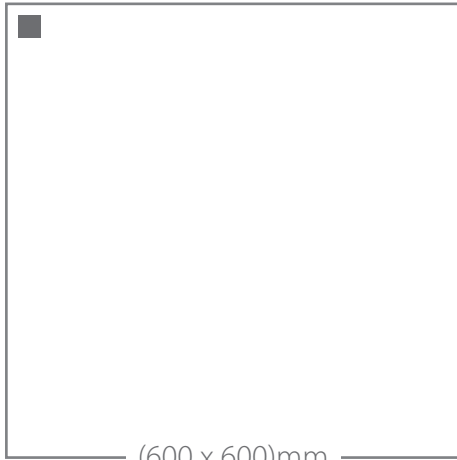

#### **OUR VALUES ARE**

- A** - Align our services in line with customers needs
- U** - Understand the needs of both internal and external customer to serve them better
- R** - Review our performance regularly to improve our services
- A** - Act Assertively during challenging situation
- S** - Seek and share knowledge
- T** - Train ourselves regularly to be updated
